

Horizon Village is a private residential treatment program serving the Western Region of New York State. The program is designed for individuals who are chemically dependent and who have been unable to establish and maintain abstinence through out-patient treatment. Horizon Village residents participate in a comprehensive, individualized recovery program.

This brochure contains important information for anyone visiting our facility.

Our Mission

- Horizon Village is a tobacco-free facility. Smoking is not permitted on facility property or in vehicles.
- Residents are not allowed to have their own radios, stereos, cassette or CD players. There are stereos in the resident lounges for community use.
- Residents may use the telephone after completion of their first two weeks of the program. Non-emergency contact with family or friends is not permitted during the first two weeks.
- Upon admission, residents identify those individuals whom they want to participate in the Family Program. At the time of the Family Program, visitation is scheduled. Other visits may be arranged with the resident’s primary counselor.
- During the initial stages of treatment, residents may leave the facility only when accompanied by staff. At later stages of the program, residents are permitted to leave on pass with a family member or selected individual.
- Horizon Village believes that family and friends are very important to an individual’s recovery.

For more information about procedures for visiting Horizon Village, please call (716)731.2030 and ask to speak with the Family Counselor.
