Hope on the Horizon

We believe that recovery is possible. Individuals faced with addiction have the right to the highest quality treatment.

We believe that recovery is possible.

Comprehensive services, based on the highest professional standards, are conducted in a progressive, safe environment.

At Horizon Village, we integrate treatment, including focus on the medical, psychological, spiritual, cultural and environmental needs of the individual. Residential treatment is often a necessary step in initiating recovery and the development of an addiction-free lifestyle. Research indicates that individuals in recovery who are separated from their previous daily routine are more willing and able to fully participate in treatment programs.

A place to call home

Horizon Village is a 50-bed facility designed with our residents' comfort and safety in mind. Located on three acres, our facility is a modern, one-story, handicapped-accessible building with 24 double-occupancy and two single-occupancy rooms located in two residential wings. Additional facilities include a dining hall and fitness center, gardens and picnic area, softball diamond and basketball court. Arrangements can be made for those residents who wish to attend religious worship services.
