

Horizon Village Campus Residential Treatment

WE BELIEVE IN HOPE. WE BELIEVE IN RECOVERY.

Overview

The Horizon Village campus offers several different types of residential rehabilitation options to treat addiction and co-occurring mental health disorders in our serene and secure campus in Sanborn, NY. We are a facility dedicated to the total care of our patients by providing integrated treatment, including a focus on medical, psychological, spiritual, social and environmental needs.

Horizon Village

Horizon Village is a 50-bed, male-only, residential drug rehab treatment program designed with our patients' comfort and safety in mind. This adult only facility provides a comprehensive, individualized recovery program that focuses on the person as a whole.

Freedom Village

Freedom Village offers specialized programming and treatment interventions geared towards male veterans and first responders. We incorporate specialized individual and family services for those who may have post-traumatic stress disorder (PTSD) or struggle with a mental health disorder.

Delta Village

Delta Village provides intensive substance use disorder treatment in a residential setting, focusing on rehabilitation services for young adult males. We aim to offer patients and their families the opportunity to learn about the disease of addiction, develop and practice the coping skills needed to be successful in life, work on repairing and developing healthy relationships, and help individuals regain control of their life without relying on substances.

Aurora Village

Aurora Village was established to serve the specific needs of women ages eighteen and older suffering with a severe substance use disorder. Patients are provided the opportunity to better understand their disease, learn healthy coping skills and regain control of their lives all while in a safe and supportive environment.

Wellness Center

Physical wellness is key to recovery. The Wellness Center contains a gymnasium and fitness facility focused on patient wellness and recreation as part of their overall recovery treatment program. Our wellness counselors and personal trainers provide health education and fitness direction to patients on the campus. Cycling classes, yoga classes, barre classes, basketball games and more are a weekly occurrence on campus.
